

## JOIN US FOR OUR INSTAGRAM LIVE

**BACK BY POPULAR DEMAND!**

We are excited to announce the return of our Instagram Live on Monday  
20th July at 4pm @BYONIK\_UK

Join Andy Millward, Skin Expert and Facialist with a huge passion for skin health and Teresa Da Graça, Chief Executive of Pure Swiss Aesthetics, Wellness and Aesthetics Entrepreneur.

Tune in to hear them discuss all things skin, the BYONIK award winning Pulse Triggered Laser and why this treatment has been dubbed the "Go To" treatment by the UK's top facialists and press. Find out why your clinic should invest in one to keep ahead of the game.

The Byonik will be the perfect treatment and first choice for my clients post-coronavirus reopening. Not only does it rejuvenate and repair the skin on a cellular level, without inducing wounding, but with the addition of the pulse-triggered transmembrane convection, being able to intracellularly infuse antioxidants and vitamins to support cell function. The treatment itself also has therapeutic benefits, meaning we are able to bring the 'therapy' aspect back into the treatment at a time when our clients are feeling more stressed, yet not have to compromise on a results-driven treatment. The fact there is no downtime or recovery time, is also a huge bonus. After weeks / months of being in isolation, who wants another 3-7 days stuck indoors recovering from a facial?"

**- Andy Millward**

"After lockdown, we'll be recommending Byonik to those who are suffering with 'lockdown face'; those whose skin has been suffering from impact of stress and anxiety, change of lifestyle, and lack of their usual care. Why? Because Byonik is a quick, safe and relaxing way to revitalise and recharge dull, stressed, inflamed, ageing skin." - **Jane Lewis, The Skin to Love Clinic**

"I believe this is where the BYONIK will prove to be unrivalled in the market and is an invaluable treatment in my clinic. It offers instant and visible results, whilst restoring the health and hydration levels of the skin. Also with it being non-invasive and delivering no trauma to the skin, it means that for all of you, it will be an immediate skin SOS, with short and long term benefits for your skin health." - **Helen Taylor, Helen Taylor Aesthetics**

"With time to reflect and after thorough research, I was even more convinced that I had to have the BYONIK Pulse Triggered Laser. This, I knew would be my come back machine. Having trialled the device pre lockdown, I knew it was the answer to help support and restore the increased numbers of compromised skin barriers that I had been seeing and treating more and more of, over the last 12 months. Despite my already fantastic portfolio of kit, I still hadn't the one device that I could repair damaged skin. Everything from the bespoke delivery to the infusion process and of course the results are just at the next level.

**- Chantal Johnson, The Salon**
